# HANGED TO A TREE

The First Lynching in Central Illinois for Many Years Took Place at Lacon.

## NEGRO STRUNG UP BY ENRAGED MINERS

There is No Special Effort Being Made to Discover the Identity of the Members of the Mob.

The Sheriff Thinks Public Sentiment Does Not Justify Him in Having Special Efforts to Capture the Negro Assassins.

LACON, Ill., Nov. 8.—The first lynching in central Illinois in many years took place here early Monday morning, when 100 miners from Tolosa, a mining town a short distance east of here, broke into the county jail, took out F. W. Stewart, a Tolosa Negro, and hanged him to a tree.

The work was done quickly and quietly. Only a few late stragglers noticed the names of strangers who kept arriving into town from the east. They were well organized, however, and shortly after midnight marched in a body to the jail, broke in the doors after a short parley with the sheriff, dragged the Negro from his cell, carried him to a tree a mile from town where the remainder of the party awaited him, and there swing him to a lynch.

Stewart's crime was assault on Friday evening upon Mary O'Brien, the daughter of one of the Tolosa miners. Although many in Lacon deplore the lynching, there is a general impression that the Negro was punished as he deserved, and no special effort is being made to discover the identity of the members of the mob.

The coroners jury Monday afternoon recommended that Stewart be buried to his death at the hands of persons unknown, and the sheriff seems to think public sentiment would not justify him in making strenuous efforts to capture the lynchers.

## A STARTLING REPORT.

Well Organized Plot to Commit a Riotous Outrage Should the Inquiry Be Favored to Capt. Dreyfus.

London, Nov. 8.—The Daily Chronicle says Tuesday morning: "We have received information from a reliable quarter of a well organized plot in Paris, in the event of the inquiry before the court of cassation proving favorable to Dreyfus, to commit a riotous outrage in the French capital, to attempt to overturn the civil power, and to assassinate the leading champions of Dreyfus."

"These reports are confirmed by interviews had with M. Trarieux, former minister of justice, and M. D. Pesson, foreign editor of the Temps, as well as others. The police have warned those friends of Dreyfus to change their residence temporarily, or at least to carry revolvers."

One Robber Killed and Two Captured.

WORCESTER, Mass., Nov. 8.—Early Monday a posse of citizens of North Grafton surrounded a gang of burglars who had broken into the post office and captured two and killed one of the robbers.

# AGAIN DEMANDED

Chairman Day, of the Peace Commission, Receives Some New Instructions.

## MONEY IN PAYMENT FOR THE ISLANDS

The Sum Will Not Exceed the Aggregate of Debts Contracted by Spain for Improvements.

The Spanish Want Damages for Firing on Men After the Protocol Had Been Signed—Spaniards Still Willing to Settle.

WASHINGTON, Nov. 8.—Spain's explosive argument against the cession of the Philippines to the United States has had the result of making the officials all the more determined to take the islands.

Instructions sent to Mr. Day, chairman of the American commissioners, will require him and his colleagues to renew on Tuesday their demand for payment of the debts contracted by the United States to the United States and they will make in their communication the first offer of money in payment for the islands.

It is understood that the president will consult Tuesday with some of his advisers concerning the amount to be named in the American communication, but the sum to be paid will not under any consideration exceed the aggregate of the debts contracted by the United States to the United States and debts and debts contracted in the name of other islands, such as Cuba, will be barred and the Spanish commissioners will be informed that they must recognize this fact as promptly as possible.

Mr. Adm. Dewey's victory in Manila bay was unimportant, and the possession of Cavite during the war was not such as to give the Americans, the Spanish to declare, control of the islands and it is claimed, and the claim fortified by the argument that any legal precedents that the American government has no moral right to demand the cession of the entire group of 1,400 islands when it held only such a small bit of territory as that at Cavite and controlled only the bay of Manila.

All during the war Spanish troops were stationed on other islands and were massacred. The Spaniards indicated their willingness, however, to sell the islands and the authorities have no apprehension now that any rupture will occur unless it be over the amount to be paid.

It is also claimed by the Spanish commissioners that this declaration was assented to by President McKinley. As a matter of fact, the note had declined to answer it, either in writing or verbally, to the Spanish.

The Spanish commissioners have declared, it is said, that instead of the United States acquiring the Philippines, this government should pay their government an indemnity for the attack on Manila after the peace protocol had been signed and for the damage consequently done.

Secretary Hay has received a full statement of the contents of the Spanish note. It character was just what the Spanish expected—with any amount of importance of any kind.

The Spanish commissioners call attention to the action of the government in delivering the note through M. Cambon, the French ambassador, to President McKinley which sets forth the understanding of the Spanish government that in agreeing to the protocol its sovereignty over the Philippines would not be affected.

After the Philippine question has been disposed of, the commissioners will consider the determination of claims which have been filed by Americans against Spain and by Spaniards against the United States. It was thought that this government would bind itself to satisfy all American claims in consideration of the territory ceded to the United States, but this is incorrect. The Spanish commissioners have a heavy claim for fulfillment against the United States to offset the claims filed by Americans for personal and property injuries, and the question of their disposition will have to be decided.

## UNITED STATES AND SIAM.

Personal Diplomatic Relations Between the Two Countries, After a Lapse of Years, to Be Re-established.

WASHINGTON, Nov. 8.—The secretary of state has been informed that the Siamese government is about to re-establish its legation in the United States after a lapse of many years, during which time all of its diplomatic correspondence with this government has been conducted through its legation at London. The newly accredited Siamese minister plenipotentiary to the United States arrived in New York Saturday, and will come to this city in a few days to present his credentials and re-open personal diplomatic relations between the two countries.

## WILL UNDERTAKE THE JOB AT ONCE

The Government is Willing Provided the Concern Agrees to Deliver It in a United States Port.

No Money is to be Paid Until This is Done—The Wrecking Co. Indicates a Disposition to Wreck the Critically Colon at Once.

WASHINGTON, Nov. 8.—Capt. Chester's decision Sunday to abandon the work of wrecking the Colon marks the end of that undertaking on the part of the government. It is said at the navy department that the captain was directed to stop the work when in his discretion it was no longer profitable. Because the contract with the wrecking company has been terminated, it does not follow that the government will be denied of saving some of the sunken Spanish warships. The navy department is ready to engage with thoroughly responsible wrecking concerns, providing the latter above the government from payments unless the ships are delivered in a United States port.

It is understood that the president will consult Tuesday with some of his advisers concerning the amount to be named in the American communication, but the sum to be paid will not under any consideration exceed the aggregate of the debts contracted by the United States to the United States and debts and debts contracted in the name of other islands, such as Cuba, will be barred and the Spanish commissioners will be informed that they must recognize this fact as promptly as possible.

OCURRING AT ORANGEBURG.

What The Ledger's Correspondent Records  
From That Pleasant Vicinity.

Mrs. Mastek has been visiting in Fleming  
county.

This is the quietest election we ever heard  
of. What is the matter?

Born, to the wife of Leslie Flindt, a tall  
and-a-half pound girl, Saturday evening, 18  
inst.

The protracted meeting held by Rev Purdie  
at M. E. Church has resulted in a few conver-  
sions.

Died, Thursday morning, 2d inst., Mrs.  
Jenifer Coulter. She had been a devout  
methodist. She had been faithful for eleven  
years. Mrs. Coulter was a very industrious  
woman and was liked by all who knew her.  
She had two sons, a son and a daughter, a  
son, a mother, four sisters, and a brother,  
Will Taylor, besides many relatives to mourn  
her loss. Funeral at Christian Church con-  
ducted by Rev Ben Cox and interment at Mt.  
Olivet.

### PLUMVILLE PICKINGS.

What Our Good Friends Have Been Doing  
Since Our Last Report.

The church house is receiving a new coat of  
paint this week.

A. L. Bedman visited relatives near Talle-  
boro Saturday and Sunday.

Mrs. Paisie King of near Aberdeen vis-  
ited her sister, Mrs. Eli Frame, recently.

Thomas Bell of Garmonville, a recent  
graduate of M. A. St. Andrews.

Mr. Amadeo Mattiatti, who has been ill  
with fever the past few weeks, is reported  
seriously ill.

Mrs. Anna Bubblehead, accompanied by her  
friend, Miss Ruth Frame, visited relatives here.

Mabel Bradley and Lettie Nicholson  
of Mansfield are visiting relatives here.

The church is a-wake.

Mrs. Miles Hine of Logan's Gap, O., re-  
turned to her home Monday after a pleasant  
visit to her sisters, Madamessas, Miss Wilson  
and M. W. Madam.

Mr. and Mrs. Bryant and their son, Harry, re-  
turned to their home at Pleasant Ridge Fri-  
day, after a several days' visit with relatives  
at Orchard Farm.

Late to bed and early to rise prepares a man  
for the home in the skies. But that will make  
it late to bed and bed and when, Henry W.  
Ray, adjoining Postoffice.

Mr. and Mrs. Bryant were the record  
this year with 850 merchant vessels of 1,264,200  
tons under construction on September 30th,  
while 35,000 tons were not yet built, so  
with 1,264,200 tons of 325,000 tons  
are built. Great Britain's maritime  
supremacy is shown by the fact that 600 out  
of the 600 ships are being constructed for  
British owners.

When you ask for DeWitt's Witch Hazel  
you are asking for the best. It is the best. There  
are more cases of Piles better cured by  
this than all others combined. Henry W. Ray,  
adjoining Postoffice.

**How Old She Looks!**  
Poor clothes cannot make you look  
old. Even pale cheeks won't do it.  
One thing does it, and it is the secret  
of all old women. It is the power with  
the color of seventy years in your hair.

**Ayer's Hair Vigor**  
I permanently postpone the tell-tell  
signs of age. It brings back the color  
of youth. It thickens the hair  
and also, along with the power of  
the color of seventy years in your hair.  
It is the secret of all old women.
